

# Glue Starfish Necklace

This pebbly-textured starfish is easily made from white glue sprinkled with sand or glitter. It is fun to wear, display, or hang in a window.

## Supplies

Waxed paper  
White glue  
A toothpick or small stick

Paper Clip  
Sand or glitter  
Yarn

Working on a piece of waxed paper, carefully squeeze some white glue in the shape of a starfish. If you need to adjust the shape of the starfish a bit, use a toothpick.

Fold a paperclip into a "V" shape. Lay the ends of a paper clip in the glue at the end of one arm of the starfish.

Sprinkle the glue lightly with sand or glitter. Gently shake off the excess sand or glitter.

Let it dry completely (this takes at least overnight - sometimes longer).

Carefully peel the waxed paper off the back of the starfish. Thread a length of yarn through the paper clip and tie ends in a knot.

You now have a pebbly-textured starfish to wear, display, or hang in a window.
